- **from october 2007 to present:** Andrea Cingoli, Paolo Emilio Bellisario, Francesca Fontana, Cristian Cellini

Topics and Aims

With the addiction of dissimilar competence, individuality and personality mixed with an ongoing research and experiences ZO_loft was born, offering a mobile, dynamic, and flexible architecture, design and urban space.

ZO_loft proposes to discover and use inexpensive and sustainable technologies and materials, while analyzing recovery and recycling processes, investigating in life-style and activities of our fellow human, providing easy marketing strategies and better understanding the differing consumption needs of the populations in general.

Planning and managing the changement ZO_loft is following its aims by reinventing or hybridizing functions, contaminating or showing an apparent funcional disgregation.
